Introduction

Following the review of NTA level 4 curriculum in 2022, there has been a need to review the Practical Procedure Book to accommodate the changes in practical competences.

This practical procedure book aims at reinforcing learning in practical skills to students and shall be used as a monitoring tool.

HOW TO USE THE PRACTICAL PROCEDURE BOOK

- Each student shall have his/her own practical procedure book at the beginning of each academic year.
- Procedures listed under each module in this book should be performed by the student in the presence of the clinical instructors/tutors.
- The principal/academic officer will be responsible in selecting clinical instructors.
- When a student has attained competence of a particular skill, a clinical instructor/tutor shall assess and grade his/her level of performance and sign the procedure book.
- The signature should include both names' initials and signatures in the space provided against each procedure.
- Academic officer should be familiar with the signatures of all clinical instructors/tutors. (Prepare a sample signatures form).
- The academic officer should assess procedure books of every student monthly to monitor student's progress.
- The practical procedure books should be completed before starting semester examinations and be submitted to academic officer for assessment before submission to the principal for approval.
- A student shall be allowed to seat for the semester exam after successfully performed at least 75% of all the procedures stipulated in each module.

NOTE:

1. The student shall be scored after demonstrating competences at the satisfactory level and above.
2. Student bring this PPB in the semester clinical examination for verification and assessment of procedures done
